FIELD BOTANIST (WETLANDS)

2016 FIELD SEASON

UNIVERSITY OF WYOMING’S NATURAL DIVERSITY DATABASE

The Wyoming Natural Diversity Database at the University of Wyoming seeks to hire a botanist with experience working in wetlands, especially in the central Rocky Mountains. The botanist will be on a two-person crew that collects data about vegetation, soils, and hydrology in wetlands near Baggs, WY from mid-May through August. The botanist will be a short-term, non-benefited employee of the University of Wyoming. This wetland project is based in Lander, Wyoming, and the field botanist will report for work in Lander at the beginning of each work week or other field-sampling period. Housing is not provided.

DESCRIPTION OF WORK: Each day, the crew members will navigate to predetermined sampling points. At each point, they will delineate the wetland boundary, document the strata present in the vegetation and identify the dominant plant species in each stratum, record the abundance of invasive weeds, characterize the soil profile, identify hydric soil indicators and record information on a variety of hydrological features.

SEASON: Start May 23rd and end around September 1st. The ending date will be somewhat flexible.

WORK SCHEDULE: There will be 40 hours per week of work in the Lander, WY office for field season preparation beginning May 23. Field season schedule (June 6 – Sept 1) will be 8 days on/6 days off. Car camping and backpacking is required. A vehicle will be provided for all field work in Baggs, WY.

REQUIREMENTS: (1) Demonstrable proficiency in identifying common Rocky Mountain wetland plants. (2) Ability to quickly learn to recognize unfamiliar plants. (3) Ability to collect good-quality plant specimens and the information needed for labels. (4) Careful attention to detail in making measurements, recording information, and keeping track of data forms & equipment. (5) Willingness to work long days, sometimes in difficult conditions.

DESIRED SKILLS: (1) Acquaintance with techniques of wetland delineation; (2) Experience driving 4-wheel drive vehicles on rough roads; (3) Ability to navigate using topographic maps, compass, & gps receiver; (4) Experience using Arc GIS and Microsoft Access.

PAY: Gross pay will be $16.00 per regular hour, with time-and-a-half overtime for hours exceeding 40/week. $20.00 per diem will be paid for each day spent camping out. Social security and workers’ compensation payments will be deducted from gross pay.
To apply, submit a cover letter, resume showing qualifications, and contact information for 3 references to Lindsey Washkoviak, at lwashkov@uwyo.edu. For more information please call 307-335-2139.

Applications will be accepted until the position is filled.
